# Deploying Over 2 Dozen Analytics to Enable a Data Driven Culture

Using Workday Prism Analytics

Invisors Blended External Data to Generate Cross-System Insights

From our Customers

"This report is GANGSTER!!!! Way beyond what I expected, to be honest. I love the red flags; I think this is an added element that I didn't ask for but didn't realize that I would need (more-so, want)."

Business Leadership Analytics to Visualize Cross-System Data + Drill into Details
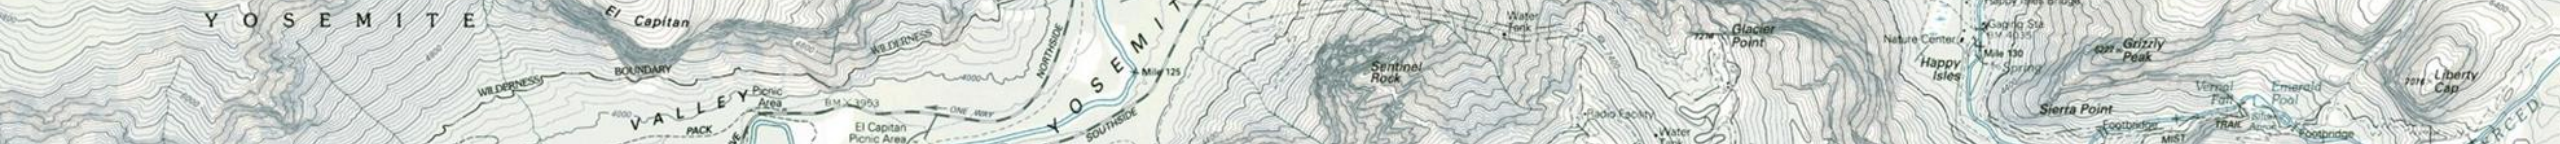

- Call Center Performance Analysis: Make more informed comp + talent decisions using job performance data
- External Supplier Invoice Detail: Track spend patterns + find opportunities to save on hidden line items
- Business Systems Data in Financial Reports: Automate data consolidation + analyze business results faster

Invisors developed 30+ custom analytics across several use cases:

Automated cross-system data reporting in Workday for business leaders

Customized "Start-Here" Dashboards to organize self-service capabilities

Curated dashboards for Process Owners to monitor + analyze operations

Deploying Over 2 Dozen Analytics to Enable a Data Driven Culture

Using Workday Data + Delivered Functionality, Invisors Deployed These Analytics
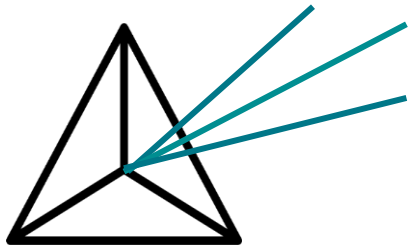

* denotes Invisors Proprietary Dashboard
